

# CELEBRATION OF SERVICE

---

## 10 years

### **DUSTIN HOFFMANN**

Dustin's contributions to LTS have been innumerable. From desktop support to server administration, he works endlessly to ensure everything is running as smoothly as possible. If there is something that I need, I can count on him to get it done. Always on the look out for a more efficient way to do his work, Dustin is an invaluable member of the team.

–Ernest Shaw

### **RENITA RICHMOND:**

Renita is an absolutely essential and beloved member our staff at HSL. We quite literally couldn't get along without her. Her willingness to roll up her sleeves and take on any task makes her a huge asset to our team, and her lovely smile, smarts, and wonderful sense of humor make coming to work each day a true pleasure. We are so glad to have her with us! Congrats, Renita from all of us at HSL and Mizzou Libraries.

–Amanda Sprochi

## 15 years

### **SUZY BENT:**

Suzy has served the University Libraries for the past 15 years to correct cataloging errors, catalog government documents, help the libraries recover from the mold situation, and transfer items to our off-site depository, to name just a few. She is highly dedicated to her team and her work.

–Corrie Hutchinson

### **GARY COX:**

It is difficult to imagine University Archives without Gary Cox at the helm of its reference services. It is a position he has made his own over the past 15 years, becoming the go-to resource for University of Missouri history. From working with MU's 175th celebration to helping the Missouri Sports Hall of Fame, Gary does it all. Of all the things to worry about in making the University Archives all it can be, Gary is not one of them. Gary's work ethic, his attention to detail, his ability to communicate with patrons and coworkers, and his professionalism are all beyond reproach. His reference work is always conscientious, diligent, and thorough, with the result that no reference question is too straightforward or too complex to get anything but Gary's best. Every time.

Thanks, Gary!

–Anselm Huelsbergen
