

List of Article Search Results

Link to a dynamically generated up-to-date set of database results.

Please note: This will only work in a few databases such as EBSCOhost and Proquest databases.

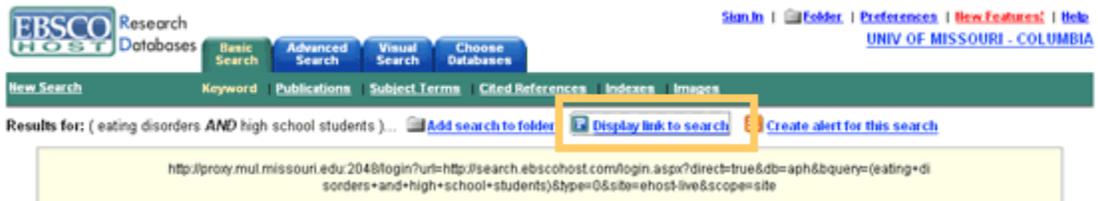

EBSCOhost databases

1. Complete the search in the database.

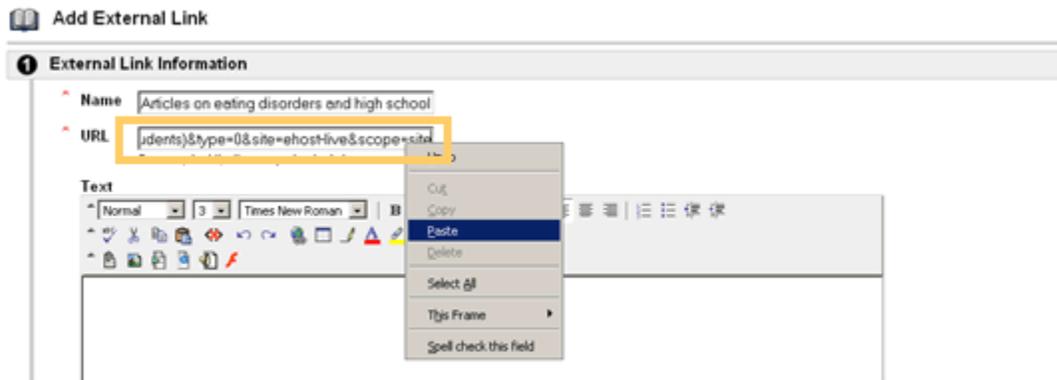

The screenshot shows the EBSCOhost search interface. At the top left is the EBSCOhost logo with the text "Research Databases". To the right are links for "Sign In", "Folder", "Preferences", "New Features!", and "Help". Below the logo are four buttons: "Basic Search", "Advanced Search", "Visual Search", and "Choose Databases". A green navigation bar contains "New Search", "Keyword", "Publications", "Subject Terms", "Cited References", "Indexes", and "Images". The search input field contains "eating disorders and high school students" and has "Search" and "Clear" buttons. Below the input field is a dropdown menu labeled "in:" with "Academic Search Premier" selected. To the right of the dropdown is a "Folder is empty" message.

2. Choose "Display link to search". Copy the resulting URL.

The screenshot shows the EBSCOhost search interface with the search results for "eating disorders AND high school students". The search input field is empty. Below the input field are three buttons: "Add search to folder", "Display link to search", and "Create alert for this search". The "Display link to search" button is highlighted with a yellow box. Below the buttons is a yellow box containing the URL: "http://proxy.msl.missouri.edu:2048/login?url=http://search.ebscohost.com/login.aspx?direct=true&db=aph&bquery=(eating+disorders+and+high+school+students)&type=0&site=ehost-live&scope=site".

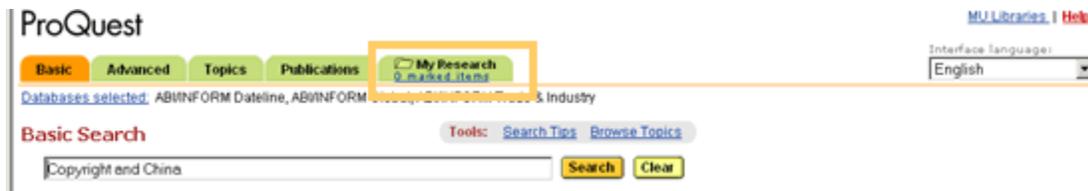

3. In your Blackboard course, paste the URL in the External Link area (or other content area, your assignment, your syllabus, etc.).

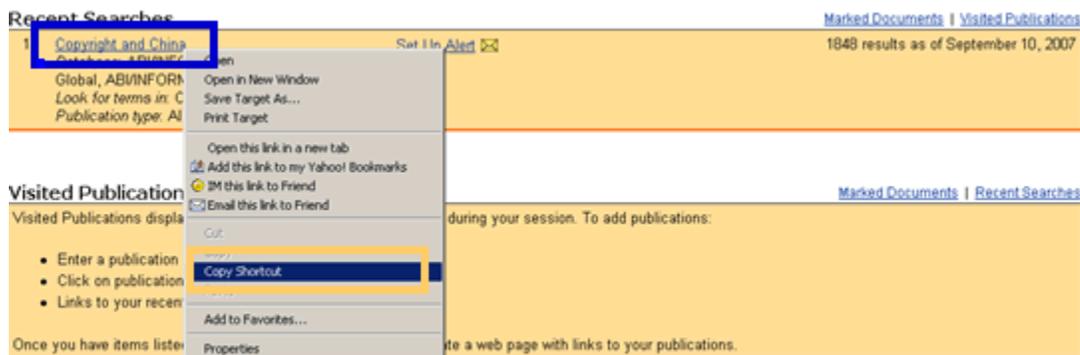

***New articles that meet your search criteria will automatically be added to your search results.

PROQUEST databases

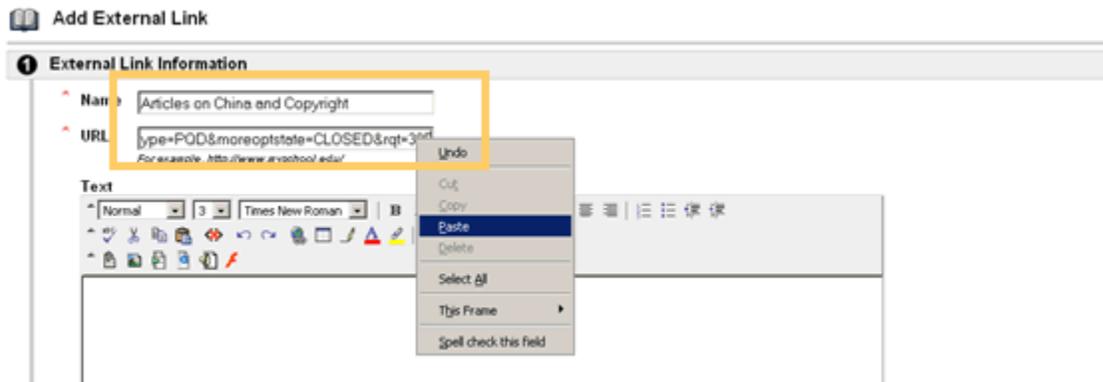

1. Complete the search in any Proquest database. Select the “My Research” tab.

2. Under “Recent Searches”, do a right mouse click on your search terms and select “Copy Shortcut” or “Copy Link Location”.

3. In your Blackboard course, paste the link in the External Link area (or other content area, your assignment, your syllabus, etc.).

***New articles that meet your search criteria will automatically be added to search results.
