TV and Radio Transcripts

Most news transcripts available through MU Libraries databases are in Lexis-Nexis Academic. You **cannot save links** to individual items in this database. The **next-best solution** is to provide students with a link to the database and instruct students to do a search that will produce only the desired transcript.

1. Find the transcript you want your students to read. Select and copy a few lines of text from the transcript.

- 3. Run the search and make sure the search only produces the transcript you want.
- 4. Copy the URL from the browser URL address box.
- 5. In your Blackboard course, paste the link in the External Link area (or other content area, your assignment, your syllabus, etc.). Add notes telling the students exactly how to run the search.
