

## MU Libraries' Content Management System Task Force

**Minutes** – 8 August, 2006 9:00-10:00

Task Force members present: Anselm Huelsbergen, Ernest Shaw, Michael Spears,  
Rhonda Whithaus

Task Force members absent: Felicity Dykas, Janice Dysart, PT Martin

Others present: none

- Update on Cascade pilot:
  - Since IATS will work with Cascade users to allow them to serve Cascade pages to their own servers, Michael is working on getting a SFTP setup for the Health Sciences web server
  - Ernest is looking into options for SFTP for the Ellis Library web server
  - Discussion about whether or not to pursue SFTP for both or even one server
    - From all we have read and been told, it should be quite easy to include scripts in Cascade and then have the web server execute them. It was decided that we would still like to see this actually work as part of the pilot.
  - looked at the beginnings of the subject guide design -- mainly using data definitions and XSLT to display information on electronic resources.
- The two subgroups will continue to work on pages for the pilot.
- The next meeting will be the 22<sup>nd</sup> of August in 159 Ellis Library (Reference Conference Room)
